

Math Department TA Evaluation Form

Completed

 2016-2017 Fall / Student Course Evaluation (End of Term) / Anonymous Survey

Schedule: 11/2/2016 to 11/23/2016

Course Assignments: 244 / Survey Participants: 6281

Results Available: 12/29/2016

 This survey completed on **Wednesday, November 23, 2016 at 11:59PM.**

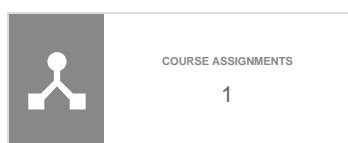

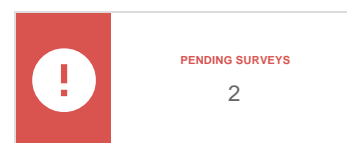

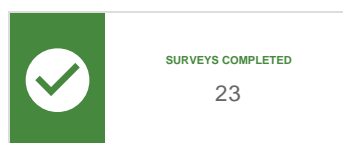

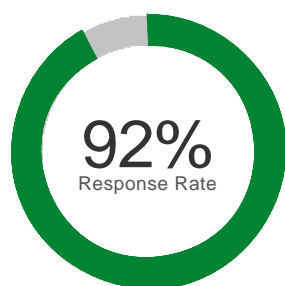

College: Letters and Science

Department: MATHEMATICS

Course Section: MATH 222 - 369 Calculus and Analytic Geometry 2

Instructor: Michel Alexis

What do you like most about the instructor's teaching?

(Instructor Text/Memo)

Michel Alexis instructor

- He uses a mix of class work and group work to get practice on difficult problems.
- Good personality and connects with student well. Get down to business and cover topics directly from lecture.
- He makes the material extremely easy to understand
- Michel is very engaging and active in teaching. Not only does he go through examples on the blackboard in the beginning of class, but he also encourages students to think about the questions and concepts through a more Socratic style of teaching. He doesn't do the work for you, but helps guide you to the right conclusions. Michel also understands when students have hit a block and will helpfully offer hints or the answer if absolutely necessary. One thing that puts him above other TAs is the amount of work he himself does for the sake of this class-- he made a webpage for all the homework and worksheet solutions!
- Knowledgeable
- Concise and accurate and easy to understand
- Worksheets provide good practice
- He understands everyone's questions and can relate them to the information we are learning at that moment.
- He can explain well the material and is very positive towards his students
- He's relatable and knowledgeable which makes learning from him very easy.
- How it is different from the professors
- Speaks clearly
- I like how he focused on the hard material covered in lecture first then went on to do the work sheets
- Lots of practice
- They explain problems during office hours well.
- Very knowledgeable and passionate about the subject.

learning understands questions students easy material
 explain makes
 knowledgeable work class through does teaching

How could the instructor improve his/her teaching?

(Instructor Text/Memo)

Michel Alexis instructor

- If possible, it would be better if we went over the quizzes in discussion.
- Often breaks up class into groups, so student have to work with student. Sometimes it can be confusing if student need more direction.
- In no way that I can think of
- Could encourage more question asking.
- Explaining challenging steps more thoroughly
- It's perfect
- Less worksheets, more examples on the board similar to pre-class.
- Write cleaner on the board. Just sometimes hard to follow.
- Instead of working in groups on the worksheets and never seeing him do the problems as examples, I would prefer if we got a little bit of a lecture and then worked on the worksheet as a whole class
- He's pretty damn good already.
- More explanations and less working on our own
- He could help with the work sheet a little more
- Going over hw more
- Not sure how without potentially destroying the balance
- Maybe explaining questions as an entire class more than just in groups.
- Maybe rather than explaining the specific homework problems asked, explain a more general solution so that we understand the underlying math? Though to be honest I'm already really happy with how you do stuff.
- I'm not a huge fan of working on worksheets in groups. Wish we could just go over them together as a class and have the TA write them on the board.

Any further comments:

(Instructor Text/Memo)

Michel Alexis instructor

- Nope
- Thank you for making math enjoyable! Or at least, not complete suffering. I will miss your teaching next semester!
- No
- Neato burrito shirts.
- Keep encouraging us to strive to be great.
- #bomb.com
- No
- ☐
- Nope
- Does a good job, would recommend
