Here are some selected student quotes CTAPP would like to highlight:

He is very good at answering questions effectively and explaining things in multiple ways so everyone can understand what is going on. He could improve his teaching by having us do some of the worksheets as a bigger group because often times they are on topics we are not too familiar with.

CTAPP has the following feedback for you:

The overall comments make it sound you are very good at explaining concepts at the board, but that perhaps you rely on this method too often. A number of students recommend varying your activities more, and spending more time engaging everyone in group work, and this could be helpful.

We recommend that you read your students' comments carefully to find in what areas you are doing well and where you should improve. Read the enclosed Teaching Evaluation Feedback handout for guidance on interpreting your results. If you have questions about your evaluations or this ranking, please speak to one of the committee members.
