What do you like most about the instructor's teaching?

(Instructor Text/Memo)

Michel Alexis instructor

- I think Michel does a really good job explaining problems
- Very enthusiastic, engaged students, explained concepts well and didn't rush students
- I like how Michel helps lead us to an answer without giving it to us right away.
- How he facilitated questions and didn't just tell you the answer (even if you were REALLY frustrated)
- He encourages us to continue to try at a problem even when we want to give up
- He makes class fun and he is very down to earth.
- He would let us work and would help us if we got stuck.

How could the instructor improve his/her teaching?

(Instructor Text/Memo)

Michel Alexis instructor

- He is the best TA I have had so far, no recommendations
- Sometimes we would get off track and talk a bit too much, but this is the first discussion that I've had friends in, and I was especially thankful to meet other women in STEM fields. I thought you did a good job of keeping the balance between math and socializing, but it's important for us to build connections and have a few laughs as well.
- I think it would be helpful to have an example or 2 of the types of problems covered on the worksheet or key ideas done on the board at the beginning of class.
- Idk
- Sometimes it feels like michel is explaining something from one perspective and it would help to have different approaches to explaining.
- He is an ideal teacher.
